

Auto Trim DESIGN Incorporated is committed to operate and integrate environmental, health and safety (EHS) matters into all business operations.

Our Sustainability Policy

Auto Trim DESIGN Incorporated is committed to operate and integrate environmental, health and safety (EHS) matter into all business operations. We do so by adhering to the following:

- ▶ We commit to be in compliance with all applicable EHS and labor regulations. We will implement programs and procedures to assure ongoing compliance.
- ▶ We are continuously seek opportunities beyond regulatory compliance, to incorporate pollutions prevention and other activities to enhance our sustainability development. We measure our progress and document ongoing efforts through reviews which will be conducted a minimum of twice a year and perform regular audits to ensure sustainable results.
- ▶ We have strive to find ways to reduce our VOC emissions. We have minimize the amount and toxicity of waste generated and will ensure the safe treatment and disposal of waste.
- ▶ In order to diminish the impact Auto Trim DESIGN Incorporated has on the environment, we are maintaining a pollution reduction and active recycling program that focuses on the source reduction, reuse and measurement in our production and office environment.
- ▶ We are committed to helping customers make sustainable material and design choices whenever possible. An important part of this commitment is our willingness to communicate with our employee's, vendors and customers our position towards sustainability. In our continuous pursuit to reduce our environmental footprint, we encourage all to communicate any concerns, or suggestions that will help assist us.

In our continuous pursuit to reduce our environmental footprint, we encourage all to communicate any concerns, or suggestions that will help assist us.
